

Pastor who had UFO briefing: Beware of false prophecies

Story by Katie Pavlich

([NewsNation](#)) — A Christian broadcaster who says he recently received a UFO briefing from government contractors warns the UAP disclosure movement could be used to deceive the masses.

Pastor Joseph Zupetz tells "[Katie Pavlich Tonight](#)" that he and some of his colleagues at a Nashville gathering met with knowledgeable sources who outlined plans to inform the public about extraterrestrial life.

At one point, he said, the contractors showed the pastors images of purported aliens.

"We didn't fall apart like a \$2 suitcase or start shaking," he recalled. "It did indeed get my attention. You know, we're in a world where you can falsify just about anything through digital augmentation or whatever."

He said the presenters warned the pastors that the coming disclosure about nonhuman intelligence could be twisted.

"They began to share with us, 'Hey, it's coming,' but here's the deception. The deception is, the narrative will change from 'We're not alone in the universe' to 'We have a message for you.'"

"And the message is going to be, 'We have come to enlighten your consciousness ... the Bible's close, but here's the full message.'"

Zupetz urged Christians not to fall for what effectively would be a false prophecy. On the way home, the pastor said, said his plane was trailed by mysterious lights.
